Unfortunately, one of the captured said he did not care a straw for Commissary Straw, and that he would escape. So he did; went to his cousin's house where the plunder was concealed, tied it up in a red cotton pockethandkerchief, tucked it under his arm, and vanished.

The newest thing out is a line of steamers from Odessa to Brazil, which will commence running immediately We fear it will be rather a fishy concern, as the steamers to be employed belong to the huge fishing fleet of the Russian Government, half of which is now lying useless at anchor, and it is to give employment to these vessels that this new line has been devised. No vessel that has been used for fishing, even for a week, can ever smell sweetly again.

The German steamer Frankfurt has post-parties selling their produce can always gua-rantee it, the cost of same being infinitessimal. The Argentine Rural Society have brought The Horrox and Hevelius, of the Lamport about this measure.

The Horrox and Hevelius, of the Lamport & Holt Line, from London, arrived this merning. Passengers and mails to-morrow by the river steamer. The Hevelius made a splendid run out, bringing dates up to the 16th, the latest here. The famous Carlo Circus Company have arrived in the Horrox.

Freights still weak and, strange to say, little cargo offering. At this seasen steamers should be able to fill up at once, but the shipbrokers state that they find it difficult enough. The rates are:—for Havre and Antwerp 25 francs, and Dunkirk fs.20, Outsiders taking even lower than 17½.

The following is a summary of operations affected this measure.

The decree appointing the valuators of pattent's for 1836 was published yesterday. By it the valuators have been allowed from date to 15th of February to arrange the tariffs, and the term of payment will extend from the 15th of January to 15th of April, after which date the usual fines will be imposed.

The London wool auctions closed yesterday with a rise of from 2½ to 5 o/o on opening prices. 140,000 bales sold, the best wools being from Australia. The market closed firm. The German steamer Desterro, which leaves here on the 10th, will take a mail for Santos, Rio, Bahia and Lisbon.

This card making adustry is one of great promise in this counry, and we hear that all the Clubs in the ecountry have promised to buy exclusively from Mr Casar. The high duty on the imported article makes the card industry a paying one. An Irish gentleman, who resided many years in the R. Plate and is at present a settler in New South Wales, writes to minusive for New South Wales, writes to us inquiring after the price of lands in this Province. He states that many Australian capitalists are taking great interest in this country at present and will probably make large investments here.

The following occan-going vessels entered the Riachuelo yesterday: Tertre, consigned to Messrs Juan & Jose Drysdale; Artos with cargo for the Great Southern Railway; Bachelors, Thomas Fletcher, and Okloryway. Thomas Fletcher and Oskorswarf, consigned to Mcssrs Drysdale. The Thessaly, announced to leave yester-day, will probably sail to-day. At the present moment the port-movement is very brisk and the great volume of import trade may be gauged from the fact that yesterday nine sea-going vessels entered the Outer Roads and Riachuelo. The frozen meat business is lively; the Dilsberg is loading at Zarate several thousand sheep and a considerable quantity of beef, which will be conveyed to Europe on a new frigorific system. o Europe on a new frigorific system. The town of Zarate is on the high road to progress and prosperity, and recent advices announce the final establishment of Sr Pascual Varando's Aguardiente Factory, now in good working order. Messrs. Maupas, Estrada, Escalada and Co's paper mills, situated at a short distance from the Aguardiente factory, are not yet working, as the machinery department is still incomplete. On the opposite side of the river Mr Alexander Junor's

The auction comes off con the left just on the 16th inst.

Mr James Craig, from the Guardia del Monte, was welcomed to-day. He reports the camps in good condition and sheepfarmers pretty well satisfied with the year's results in that district. Sheep out there, he states, are suffering from a "peste" in the shape of maggots, by which all the estancieros have suffered more or less. He sold his wool at 95 m in his "galpon." The "peste" is becoming very general throughout the camp, and it will be to the advantage of our sheep men to place themselves in communication with Mr Hayward, at present here, and who guarantees to completely eradicate this "peste."
